Cambria Freeman.

EBENSBURG, CAMBRIA CO., PA.

FRIDAY, NOVEMBER 20, 1894.

RECENT figures show that the total value of matches made and consumed throughout the world is but little short of \$200,000,000.

There is talk of changing the county seat of Bradford county from Towanda to Athens before the new court house is built.

In 100 home families in New York, on an average, are found sixty-three that hire their home, fifteen that own with insurance, and twenty-one that own without insurance.

At Washington, Pa., Judge Melvin pronounced Ambrose Asbury guilty of murder in the second degree for the killing of Mamie Williamson, a colored woman. There was no jury, the evidence being taken to ascertain the degree of guilt.

The most important recommendation made by Secretary Herbert in his annual report is that congress authorize the construction of three great battleships of about 10,000 tons displacement each, to cost, exclusive of armament, not exceeding \$4,000,000 each and twelve torpedo boats of from 100 to 350 tons each, at the discretion of the secretary, to cost not exceeding an average of \$170,000.

It is officially announced that Japan recognizes that the United States Minister at Tokio, Mr. Dun, is a suitable channel through which China can open up negotiations for peace. The powers will not take any part in the negotiations. They will simply remain spectators. It is considered that China is in a position to pay the Japanese demands if the war ceases now, Japan to hold Port Arthur until her demands are satisfied.

A new treaty between Japan and the United States has been signed by the secretary of state and Minister Kurin, and will be sent to the senate for ratification on the assembling December 3. The chief changes from the treaty of 1858 make an American law breaker in Japan amenable to the Japanese authorities instead of the American consul. In return, the existing limits of travel for Americans in Japan are abolished and the citizens of the United States have liberty to travel or reside where they will, enjoying full protection for their persons or property.

The ceremony of laying the corner stone of the Western Pennsylvania Institution for the Feeble minded at Polk, Venango county, was gone through Saturday afternoon, and was attended by many prominent persons of the state. After an inspection of the grounds by Governor Pattison and the Commission, the brief ceremony of laying the stone began. It was swung from a derrick above its companion stone, in which was cut the niche for the traditional box of old coins and records. On its front was simply carved the state coat of arms. Ex Mayor Rose, of Johnstown, who is a member of the commission, rehearsed the history of the site's selection, and addresses by Governor Pattison followed.

As exchange says: Experiments are being conducted by employees of the Baltimore and Ohio railroad with the object of ascertaining whether locomotives cannot be made noiseless and smokeless while in actual service. Two locomotives have been equipped with a patent steam exhaust, which, it is claimed, will save half a ton of coal from Baltimore to Martinsburg. This steam exhaust is a mechanical appliance about the size of a peck measure that is fastened on the cylinder. The exhaust steam, instead of rushing out of a 4 1/2 inch nozzle and making a noisy puff, is allowed to escape through a group of small pipes and passes through the stack easily and noiselessly. This also makes an easier draught in the fire-box.

JOHN HUBER, of Mechanicsburg, was recently convicted of selling liquor on Sunday and selling without license. His counsel questioned the constitutionality of the Brooks High License law, and held that, inasmuch as the title does not correspond to the body of the act, it is unconstitutional. They asked for a new trial on that ground alone. In deciding the matter to-day Judge Sadler said he had no doubt that, as far as selling on Sunday is concerned, the Brooks law is unconstitutional, and for that reason he would not sentence Huber on that count; but as the verdict on the second count, selling without license, was not contested, he would overrule the motion for a new trial and sentence him on that count. Huber was sentenced to \$500 fine and three months in jail.

It is reported at Washington that Secretary Carlisle will devote at least a paragraph of his annual message to the income tax by calling the attention of the lawmakers and the public to the fact that congress at its last session failed to make an appropriation to carry out that portion of the Gorman tariff bill. It is not thought that the secretary will recommend that an appropriation be made at the coming session, but that he will content himself with laying the facts before the members of congress for such action as they may desire to take. Although it cannot be stated with positiveness that the income tax could not be collected, if no money should be appropriated for the work, yet no official of the treasury department is willing to express the opinion that the internal revenue bureau could assume the great task of doing the work which, in Secretary Carlisle's letter to congress last session, he said would necessitate the appointment of at least 250 deputy collectors and an expense of \$500,000.

A VERY interesting analysis of the vote in the late election, and comparison with the vote in 1892, has been made by Mr. Frederick C. Waite, of Washington City, a statistician who was a special agent in the eleventh census. Mr. Waite's conclusion is that the stay-at-home vote caused the political revolution in both years named. This vote on the 6th inst., he places at the enormous total of 5,000,000. Mr. Waite says:

"To show that the Republican farmers did not vote for Cleveland in 1892 I analyzed the election returns town by town, throughout the rural districts of New York, and discovered that the rural vote for Cleveland was even less in 1892 than in 1888 in every agricultural county of the Empire state. In Ohio it was just the same. Cleveland's vote in 1892 was less than in 1888 in all rural townships of the agricultural counties. This year the Republicans have not cast as large a per cent. of the full vote as in 1889 in a single state. Hence, the only reasonable conclusion is that in 1892 the dissatisfied Republican farmers, and this year the discontented Democratic laborers, joined the stay-at-home voters."

It is the stay-at-home party which has made such phenomenal gains. The immense Republican pluralities this year are not the result of an extraordinary Republican vote, but of an exceedingly small Democratic vote. Wisconsin has not polled for the Democratic candidates such a small percentage of her full vote for 25 years. In Pennsylvania the Democratic party has not cast as small a vote for half a century.

In an article entitled, "An Essential Condition of Prosperity," contributed to the December number of the *North American Review*, the Hon. James H. Eckels, comptroller of the United States currency, contends that there can be no hope of undisturbed and substantial prosperity to all classes of the American people unless and until the whole currency and banking system of the country is formulated into one harmonious plan in which each part shall be absolutely sound in principle and the embodiment of monetary science. American financial legislation has been of the most pernicious character, and bad legislation in the field of finance must always exert a destructive influence on business. There is scarcely a single act upon the statute book affecting our currency system which has not been placed there simply to meet some emergency that confronted the country at the time, in the belief that a difficulty might be bridged over.

The currency system of the country resulting from the constant passing of experimental laws has become so confused and unsound that Mr. Eckels wonders not that we have suffered so much financial disaster during the years of its construction, but that we have suffered so little.

The attorney general has received notice from fifty qualified electors of the Sullivan-Wyoming judicial district of the contest by Judge Sittler, Democrat, of Tunkhannock, who was defeated for reelection by twenty-nine votes by D. W. Dunham, Republican. The matter has been referred by the attorney general to Governor Pattison, who will issue commissions to President Judges Scarle, of Susquehanna; Archibald, of Lackawanna, and Rice, of Luzerne, to hear the contest.

Sittler alleges that for a number of election precincts in the district ballots with a cross in the circle in the Republican column and a mark opposite Sittler's name in the Democratic column were counted for his opponent. Sittler contends that these ballots should have been counted for him. If his contention is sustained he will likely be seated, as more than enough ballots marked in this way were polled to give him a slight majority over his opponent.

The Susquehanna county farmer, says the Philadelphia Times, who came to the conclusion that there was nothing any longer in wheat as an investment, and by turning his attention to buckwheat flour at \$4.20 per barrel, not only adds to his bank account, but strikes a profitable line when it is considered that winter extra wheat sold the same day at \$2.25. Wheat has long held its own as attractive crop to the farmer. The acreage was small enough during a period of the war to bring prices up to \$2.65 a bushel, but acreage has increased to such an extent in recent years as to knock off the two dollars and make even the sixty-five cent figure quite shaky. There are any number of farmers raising wheat and the world is producing more wheat than it can consume. The north-eastern Pennsylvania farmers, therefore, with land admirably adapted to buckwheat, can make no mistake in taking the Susquehanna granger's departure from established usage as a pointer.

The twenty-five or more members of congress who have coolly requested the sergeant-at-arms of the house to please forward their mileage, as they do not care to go to Washington—many of them having failed of re-election—have been stunned by the receipt of the information that no mileage can be paid except to members who actually attend the sessions of congress. The effect of such notification may be to lessen somewhat the abuse of absenteeism at the approaching session; although so far as the interests of honest legislation are concerned the mileage grabbers might just as well stay at home.

The election returns make Boston the banner Democratic city for 1894. In Boston the Democracy had no burden to bear of local misrule. Its Democratic administration has run for years, and has not been charged with misgovernment or affiliation with rings.

Washington Letter.

Washington, D. C., Nov. 28, 1894.—If the level-headed members of the party are allowed to have their way, and everything hangs round the center of the Brooklyn bridge, and by the aid of a parachute performed the feat successfully. Considering the season of the year and other circumstances, it was perhaps the most daring of the three successful bridge jumps on record. Menier was taken in a cab to a newspaper office shortly after he emerged from the water successfully eluding arrest.

It was about 6:30 o'clock when Menier was seen to leave the center of the lower bridge. He sat astride of the lower bar of a parachute, which opened about fifty feet above the water. A boat with a red lantern in the bow lay a little way up the stream. As soon as the man had made his perilous leap, the parachute opened, and he floated toward the point in the water he seemed likely to strike. A stiff breeze was blowing from the southwest and the tide was running in. The wind caught the parachute and carried the jumper about fifty feet from the point where he jumped, and he landed on the left and struck the water on his left side and back. He floated once or twice for help. In three minutes the boat had reached him and he was pulled aboard. The oarsmen rowed for the shore and the jumper was taken up to the Pike street dock, where the jumper was taken from the boat, rubbed down and dressed. Menier says he feels as well as he ever did in his life, and is none the worse for his high jump.

Attack by a Lion.

Wilkesbarre, Pa., November 26.—Professor Tenoe, an animal tamer, was badly injured at a dime museum here to-night by being attacked by a lion. The lion refused to obey Tenoe, and struck several blows with a whip. The lion turned on the man and knocked him down. Grasping Tenoe by the legs he pulled him from one end of the cage to another. The man fought desperately for his life, but was no match for the beast.

The spectators became panic-stricken and the roars of the maddened lion drowned the cries of the professor for help. The presence of mind of one man saved Tenoe's life. The stranger tore the iron bars of the cage and threw them to three men in the audience, who attacked the lion and drove him into a corner.

The tamer was then dragged out. The lion on his arms and legs was terribly lacerated and on the right leg was torn to shreds. Three physicians were summoned and dressed his wounds. The lion was recovered. The lion was formerly attached to the Robinson circus and is said to have killed five men.

Where Outlawry Reigns.

Fort Smith, Ark., November 26.—Indian Agent Wisdom and ex-Indian Agent Bennett, both of Muskogee, have arrived from the bandit-infested part of the territory. At Wagoner they were notified that the freight train just ahead of them had been fired into near Bragg station, which is thirty miles east of Wagoner. Investigation proved the report to be true. Seven men mounted on horses and armed to the teeth, undertook to hold up the train in broad daylight, but the frightened driver and three down in the cab and let the train go ahead. A volley of bullets was fired at the cab and as the cab went by that also was fired into and riddled with bullets. The bandits sat on their horses, and the train came through without molestation.

A Philadelphia Woman's Disgrace.

Mrs. Adeline Featherstone, of Philadelphia, said to be the wife of a son of the late General Featherstone, of that city, and niece of the late General, is in the house of correction at Milwaukee, Wis., serving a six-months' sentence for larceny. After being kept in jail four months awaiting trial, she pleaded guilty in preference to requesting aid from her father, the president of the United States, in ignorance of the defect in the indictment. It is believed she could have escaped conviction had she been given a trial.

It is said that Mrs. Featherstone has been unable to secure her legacy, owing to the fact that she was the wife of her father in law, who made the bequest. The lawsuit is now pending in an Eastern court. Mrs. Featherstone is said to have a sister in St. Louis.

A Bank in the Garret.

Easton Pa., Nov. 26.—Joseph Nowakowski, a Polish immigrant, was found on the floor of the garret of an tenement house at Glendon. Five years ago the house was occupied by Elisha B. Palmer, an industrious carpenter. He was supposed to have money, but when he died some could be found, and his widow was left destitute. Saturday Nowakowski was found in the garret, and in the old house, and he to day caused the arrest of James Rankin, whom he accuses of stealing the \$2,500 from him, which he claims to have found under the floor of the garret of the old house.

Divorce in High Life.

Wilmington, Del., Nov. 26.—J. Edgar Addicks, the millionaire candidate for a seat in the United States senate from Delaware to succeed Senator Higgins, has been sued by his wife, Rose Addicks, for absolute divorce. The papers were filed October 19, and the matter became public to-day. In her petition Mrs. Addicks alleges the statutory ground, and names Mrs. Edgar Wilson as correspondent. Mrs. Wilson resides at Mildred, a handsome country seat at Claymont, adjoining Mr. Addicks' home farm.

Same Old Game.

Wheeling, W. Va., November 26.—Confidence men to-day sold a 32-pound gold brick to a Wheeling gentleman for \$4,000. The brick is on exhibition at the bank of Wheeling, but the people will not tell whose property it is, and the buyer is saying nothing.

The clothing of the mother also so became ignited and both were fully burned before the fire could be extinguished. Mother and child died of their injuries in a few hours.

Modes to suit every taste and occasion are illustrated in the popular "McDowell Fashion Journal," which we have at hand. THE CZAR MARRIED.

HE WEDS PRINCESS ALIX AT THE WINTER PALACE.

Imposing Ceremonies Attended by Royal Personages—He Issues a Proclamation Remitting Certain Debts and Granting Amnesty to Some Offenders.

ST. PETERSBURG, Nov. 27.—The czar, in honor of his marriage to Princess Alix, has issued a manifesto remitting various taxes to the crown, including the repayment of the grants made to the peasants on account of famines. He also wholly remits arrears of taxes and fines and mitigates or shortens sentences of imprisonment, police supervision and deportation at hard labor. The prosecution for treason of offenders who have remained undiscovered for 15 years will be abandoned. The indulgences to political prisoners will be decided upon after a report has been submitted to the czar by the minister of the interior. Amnesty is granted to the participants in the Polish rebellion of 1863, and they will be permitted to reside anywhere in Russia. Their civil rights, but not their property, will be restored to them. The imperial manifesto would occupy a page of an English newspaper. Scarcely anything has been published. It is a comprehensive document breathing benevolence in every line. It grants the greatest amnesty accorded by Russia for half a century, except the liberation of the serfs.

Thousands of troops and spectators lined the way by which the czar and his bride were to enter the city. The bride's train was worn by five officials, two walking on either side, while the czar's train was borne by two. The czar wore the uniform of the famous red hussars of the guard, with a dolman suspended from the right shoulder. The "Princess of Wales" and the Duke of Saxe-Coburg and Gotha wore Russian uniforms, while the Duke of York wore a naval uniform. All the royal princes wore the coron of the Order of St. Andrew.

In the center of the chapel of the winter palace stood a holy table, on which had been placed the altar and a cross. Between the table and the altar were multi-branched candelabra with lighted tapers. Behind the table, facing the altar stood the Duke of Saxe-Coburg and Gotha in gorgeous vestments of cloth of gold. Close behind the bride and groom stood the czar and the empress, followed by the imperial and royal spectators formed a semi-circle.

The ceremony was concluded a few minutes before 2 o'clock. The czar and his bride then descended the altar steps to greet and thank her. She embraced her son and his wife, after which they were embraced and kissed by the King of Denmark and their relatives. Everybody was much moved, and the bride was in tears. The czar was very pale and visibly affected. The newly married couple, called to the cathedral of Kazan on their way back to Antioch for the purpose of invoking the blessing of the Almighty after their marriage, and to kiss the miraculous image of Our Lady of Kazan. The newly married couple then returned their journey to the cathedral of Antioch where the dowager empress had already preceded them.

In honor of the czar's wedding, 40,000 poor people of the city will receive the gift of a loaf of bread. The schools have been closed for three days to give the children a holiday and enable them to celebrate the imperial marriage.

He has also written to the governor of each of the southern states asking their united protestations be sent to England against its indifference to the horrors of the Armenian massacres. He also issued a plea asking the people to contribute at least one cent on Thanksgiving day to a general fund, the money to be sent to either the Security Fund, Minneapolis, Western National bank, New York city, or Wells, Fargo & Co., New York city.

Whether we succeed or not is difficult to say, but if we do not, we will not attempt a revolution."

THE BONDS AGAINST RICKS.

The New York Syndicate Puts Up a Price For Them.

WASHINGTON, Nov. 27.—Secretary Carlisle has acted in the matter of the bonds of the \$50,000,000 5-per cent bonds, bids for which were opened at the treasury department Saturday. He accepted the proposal submitted by the syndicate represented by Mr. John A. Stewart of the United States Trust company of New York, and others to take the entire issue at 117.97. It is the expectation of the treasury officials that the bonds will be made very promptly, and as the understanding is that none of the gold is to be taken from the treasury, an early redemption of the bonds will be the result. The bonds including premiums will realize to the government about \$53,500,000.

The gold balance which is now in round numbers \$57,500,000 will, if the expectations of the officials regarding the deposits of gold for the bonds are borne out, be increased to \$116,000,000.

CHARGES AGAINST RICKS.

They Are Now Being Investigated by a Congressional Committee.

CLEVELAND, Nov. 27.—The house subcommittee on judiciary, appointed to investigate the charges brought by the Central Labor union against United States Judge Augustus J. Ricks, is in session in the Federal building here. The subcommittee consists of Representative J. R. Bailey of Texas, as chairman, Hon. Edward Lane of Illinois, and the Hon. Cass Broderick of Kansas.

The Central Labor union is represented before the committee by the Hon. Arnold Green, while Judge Ricks is represented by William Judge Sanders and Mr. Andrew Spire.

The charges made by the Central Labor union, which are acting in the capacity of special examiner in some 40 patent cases, he failed to turn over about \$1,500 in fees belonging to the government, and that he had received from the Central Labor union about \$1,500 in fees belonging to the government.

The session was opened by Hon. Arnold Green for the prosecution, who read the charge made by the labor union. Hon. Virgil P. Kline replied for the defendant. He stated that Judge Ricks had in 1893 made a full report of the matter at issue and had received assurances from the department that the matter was satisfactory and his accounts correct. Hon. Arnold Green, for the prosecution, admitted that Judge Ricks had in 1893 made a full report of the matter at issue and had received assurances from the department that the matter was satisfactory and his accounts correct.

Brother Irwin Arrested.

New York, Nov. 24.—George M. Irwin, who has been wanted by Pittsburgh investors for 10 days or more for alleged swindles in the conducting of the grain and lumber business, has been arrested in this city. Irwin left Pittsburgh, it is said, as soon as he learned that warrants had been issued against him, and he fled to Philadelphia. Here he was arrested by John J. Sweeney of Pittsburgh, who had been hunting for him and had the warrants against him.

ADOLPH'S SENATORIAL CHANCES.

They May Be Blasted by His Wife's Divorce Suit.

PHILADELPHIA, Nov. 25.—The news that Mrs. J. Edward Adick's has begun suit for divorce from her husband, will undoubtedly create a sensation in social and legislative circles in New York, Boston and Newport, as well as Philadelphia, where both Mr. and Mrs. Adick are well known. Mrs. Adick's stepdaughter takes her side of it.

Although the most of the time in different parts of the country, Mr. Adick has for 15 years claimed citizenship in the United States, and he has been a resident of this city for some time. He has been a resident of this city for some time. He has been a resident of this city for some time.

What effect the action of Mrs. Adick will have upon the senatorial aspirations of her husband is only conjectured. Up to the present time all signs have pointed to Mr. Adick as the successor of Anthony Higgins in the United States senate. The legislature of Delaware will elect a senator on Jan. 15. The divorce case will be referred to a commissioner, who will take the testimony in private and will file his report in court. It is not likely that much will be known of the allegations of Mrs. Adick until the testimony she has to support them.

PITTSBURGH, Nov. 26.—Sunt has been entered by the Amalgamated Association of Iron and Steel and Tin workers against the Tinned Plate Manufacturers' association, its officers and the United States Iron and Tin plate of Detroit, which is running its mill non-union, on the charge of violating a contract, or, at least, that the company has by threats, etc., induced members of the Amalgamated association to violate the rules of the association by going to work for the Tinned Plate Manufacturers' association.

The Hearing This Afternoon.

HARRISBURG, Nov. 27.—Governor Pattison declined to grant a requisition on Governor Flower for the return of George M. Irwin, manager of the Harrisburg discretionary pool, now under arrest in New York, into the custody of the Allegheny county authorities. Irwin's counsel had filed objections to issuing the requisition, and Governor Pattison fixed this afternoon for the hearing of the application.

Resumption and Reduction.

BETHLEHEM, Pa., Nov. 27.—The Lehigh steel mill of the Bethlehem Iron and Steel company resumed an enforced idleness of one month, giving employment to over 1,000 hands. The employees of the Lehigh Zinc and Iron works, which is the property of the same company, were notified of a reduction of 10 per cent in wages after Dec. 1. Every employee receiving more than \$1 per day is affected.

ALLEY OPERATIONS SUCCESSFULLY PERFORMED BY HIM

A Case of business of over 25 years, Standing

Given Eye Sight and Relieved of Pain after 20 Years of Suffering by Dr. Salm.

For over 25 years my eyes have been suffering, and I have been under the treatment of several of the best oculists in the city, but without success. I have been suffering from a severe case of myopia, and I have been unable to see anything but a blur. I have been suffering from this for 20 years, and I have been unable to see anything but a blur. I have been suffering from this for 20 years, and I have been unable to see anything but a blur.

Isaac Peterson.

Bedford, Pa., Sept. 10, 1894.

On account of the very vague explanation of the above, I give the history of the case in detail.

About 20 years ago Mr. Peterson, on account of a severe case of myopia, was unable to see anything but a blur. I have been suffering from this for 20 years, and I have been unable to see anything but a blur.

When I tried a little of something it made me ill, and after four or five years I was unable to see anything but a blur. I have been suffering from this for 20 years, and I have been unable to see anything but a blur.

Some of my friends, however, advised me to go to Dr. Salm, who had been cured of a similar trouble. I decided to try him, and I have been cured of my trouble. I have been suffering from this for 20 years, and I have been unable to see anything but a blur.
